If you visit one island a day it will take you more than 46 years to completely browse Indonesia and its 17,000 islands. Mission impossible. That is why our guides have been exploring annually the world's largest archipelago in order to offer different ways to discover this immense treasure.

Often, too often, experiencing Indonesia is limited to passive and exclusively sedentary tourism on the beaches of Bali. A proper crime in a country as rich in History as it is fabulously diverse!

With a moving program, extremely versatile, out of the beaten paths, our sole aim is to fulfill your thirst for adventure, authenticity and historical knowledge!

More than a trip, we will travel together in a small group, 4 to 6 people, to create memories and experiences as unique and diversified as it gets. From the Bali & Java temples to the amazing submarine life of the pristine waters of Lombok Strait, to an active volcano, you will go home with a souvenir box that all will envy.
